

We're Sylvan Learning. Our tutors use a personal approach and interactive technology to help kids learn math, reading, writing and more—turning B's into A's and frustration into confidence! Learn why families choose Sylvan for tutoring.

Writing Camp

The Sylvan Academic Writing program helps students master a variety of writing formats and styles. This program includes Essay process and development, Sentence and Paragraph structure and building a strong vocabulary base. Summer is a great time to build writing skills.

Math Edge

Math Edge is the 'kid-preferred' skill practice program designed to give elementary students an extra edge in math. This program builds confidence and supports a rich extracurricular experience by focusing on problem-solving strategies, computation fluency, and independent thinking skills for math concepts typically taught in school. Includes 15 minutes of Math homework support for those tough problems.
